

NOTE A

Mobile homes or modular units exceeding 12 feet in width, but not exceeding 14 feet in width, may haul over this extension only during bare pavement conditions.

Movement is not allowed when ice or snow is present on the highway, whether or not the highway has been sanded.

NOTE B

The movement of two wide loads each exceeding 12 feet in width traveling in opposing directions through the City of Sisters is not allowed through a six block section of the downtown merchant area between South Pine Street and South Larch Street due to horizontal width constraints. The lead pilot vehicle operator is responsible for ensuring that there are no oversize loads over 12' in width entering this restricted section from the opposite direction before the permitted vehicle enters the width restricted section. Pilot vehicles escorting wide loads exceeding 12' in width must announce their approaching presence on CB radio channel 17 prior to entering the six block section of the downtown merchant area between South Pine Street and South Larch Street. In the event of an oncoming oversize load, one of the lead pilot vehicle operators must direct his piloted load to wait and allow the approaching oversize load to pass safely before proceeding.

One front pilot vehicle required on **OR214** in **Woodburn** from **Jct. of I-5** M.P. 36.72 to **Progress Way** M.P. 38.91

On these sections of **US20** & **OR229** movement is allowed only from **9 AM to 4 PM**

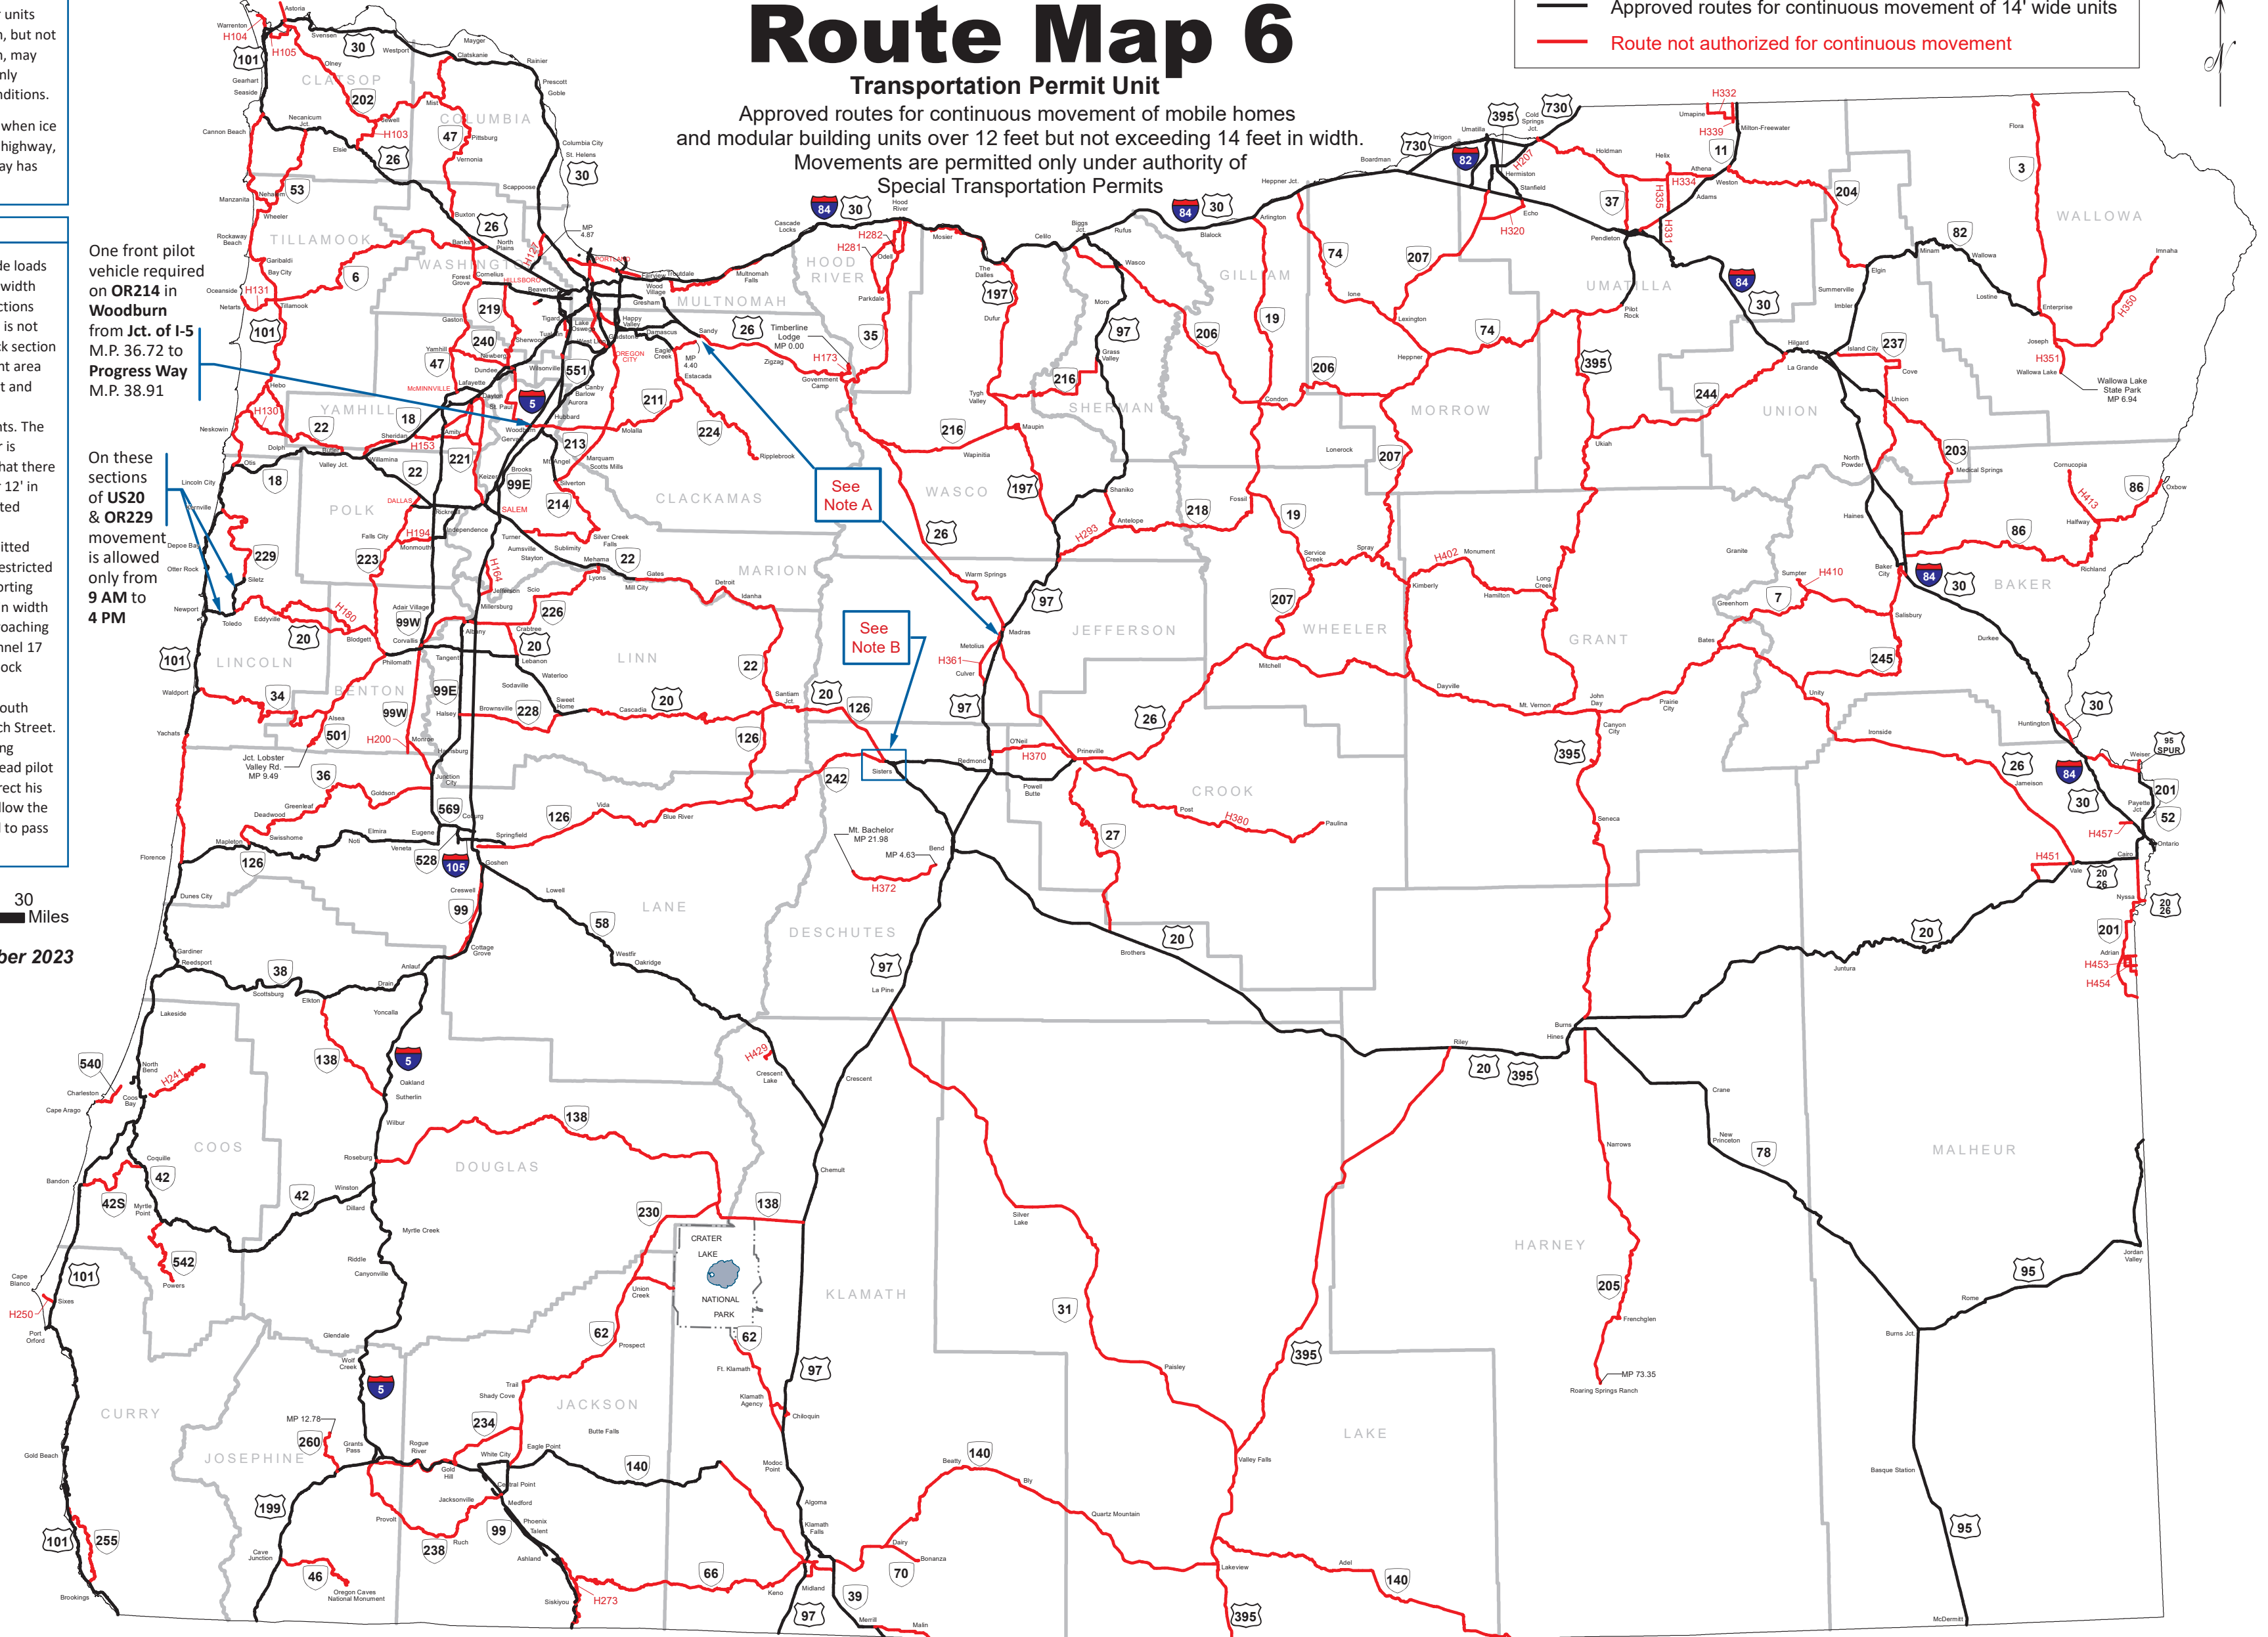

Oregon Department of Transportation

Route Map 6

Transportation Permit Unit

Approved routes for continuous movement of mobile homes and modular building units over 12 feet but not exceeding 14 feet in width. Movements are permitted only under authority of Special Transportation Permits

— Approved routes for continuous movement of 14' wide units
